**YOU'RE INVITED:**

# TORIN DEMO DAY

**JOIN US AT FENN ON JUNE 21, 2016-2-5pm**

Light refreshments & Giveaways • ALL spring company personnel welcome!

## Take Advantage of our Technical Training & Info Session!

Give your setup team the opportunity to learn tips and tricks from our expert staff on:

- Set-up
- Repair & Maintenance
- Software & Programming

Discuss custom tooling and special applications with our application engineers!

### Live Demonstrations:

- FZ11's (Gen 2 Models)
  - FZ10's (Gen 1 Models)
- 4 and 6 axis models on display!

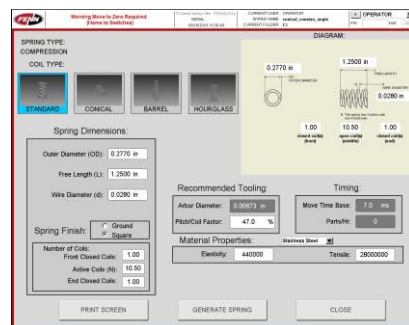

### Also on Display:

- FZ 125 Spring Coiler
- See an example of a W24 mechanical & control retrofit in process- learn how we can retrofit your mechanicals to realize the highest level of potential and output

## See our new SpringShortcut Program Generator

- The operator is able to generate the spring program with just a few key characteristics, accelerating the development process
- Now, you can create complex springs, such as barrel, conical & hourglass, by generating an easy program, rather than entering CAM information
- The program generator allows less experienced spring operators to become more knowledgeable about spring creation through adjusting generated programs
- **SpringShortcut** decreases set up time providing the opportunity for increased production time
